Interfacial mechanical behaviour of protein–mineral nanocomposites: a molecular dynamics investigation

Zheng Bo Lai, Ruixiang Bai, Zhenkun Lei, Cheng Yan

PII: S0021-9290(18)30261-6

DOI: <https://doi.org/10.1016/j.jbiomech.2018.03.044>

Reference: BM 8644

To appear in: *Journal of Biomechanics*

Accepted Date: 24 March 2018

Please cite this article as: Z. Bo Lai, R. Bai, Z. Lei, C. Yan, Interfacial mechanical behaviour of protein–mineral nanocomposites: a molecular dynamics investigation, *Journal of Biomechanics* (2018), doi: <https://doi.org/10.1016/j.jbiomech.2018.03.044>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Interfacial mechanical behaviour of protein–mineral nanocomposites:
a molecular dynamics investigation**
