The influence of lower leg configurations on muscle force variability

Edward Ofori, Jaeho Shim, Jacob J. Sosnoff

PII: S0021-9290(18)30064-2

DOI: <https://doi.org/10.1016/j.jbiomech.2018.01.032>

Reference: BM 8549

To appear in: *Journal of Biomechanics*

Accepted Date: 28 January 2018

Please cite this article as: E. Ofori, J. Shim, J.J. Sosnoff, The influence of lower leg configurations on muscle force variability, *Journal of Biomechanics* (2018), doi: <https://doi.org/10.1016/j.jbiomech.2018.01.032>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The influence of lower leg configurations on muscle force variability

Edward Ofori¹, Jaeho Shim², Jacob J. Sosnoff³
