Short communication

Simplified Boundary Conditions Alter Cortical-Trabecular Load Sharing at the Distal Radius; A Multiscale Finite Element Analysis

Joshua E Johnson, Karen L Troy

PII: S0021-9290(17)30576-6

DOI: <https://doi.org/10.1016/j.jbiomech.2017.10.036>

Reference: BM 8438

To appear in: *Journal of Biomechanics*

Accepted Date: 28 October 2017

Please cite this article as: J.E. Johnson, K.L. Troy, Simplified Boundary Conditions Alter Cortical-Trabecular Load Sharing at the Distal Radius; A Multiscale Finite Element Analysis, *Journal of Biomechanics* (2017), doi: <https://doi.org/10.1016/j.jbiomech.2017.10.036>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Simplified Boundary Conditions Alter Cortical-Trabecular Load Sharing at the Distal Radius; A Multiscale Finite Element Analysis
