

## Accepted Manuscript

Silver-Nanoparticles increase bactericidal activity and radical oxygen responses against bacterial pathogens in human osteoclasts

Valerie Aurore MD, Fabienne Caldana MS, Marianne Blanchard BA, Solange Kharoubi Hess BA, Nils Lannes PhD, Pierre-Yves Mantel PhD, Luis Filgueira MD, Michael Walch MD

PII: S1549-9634(17)30201-0  
DOI: doi: [10.1016/j.nano.2017.11.006](https://doi.org/10.1016/j.nano.2017.11.006)  
Reference: NANO 1691

To appear in: *Nanomedicine: Nanotechnology, Biology, and Medicine*

Received date: 2 June 2017  
Revised date: 13 October 2017  
Accepted date: 6 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title page****Silver-Nanoparticles increase bactericidal activity and radical oxygen responses against bacterial pathogens in human osteoclasts**

Valerie Aurore\*, MD, Fabienne Caldana\*, MS, Marianne Blanchard, BA, Solange Kharoubi Hess, BA, Nils Lannes, PhD, Pierre-Yves Mantel, PhD, Luis Filgueira, MD, Michael Walch, MD
