Biocompatibility assessment of silk nanoparticles: hemocompatibility and internalization by human blood cells

Manfred F. Maitz, Claudia Sperling, Thidarat Wongpinyochit, Manuela Herklotz, Carsten Werner, F. Philipp Seib

PII: S1549-9634(17)30142-9
DOI: doi: [10.1016/j.nano.2017.07.012](https://doi.org/10.1016/j.nano.2017.07.012)
Reference: NANO 1633

To appear in: *Nanomedicine: Nanotechnology, Biology, and Medicine*

Received date: 28 May 2017
Revised date: 29 June 2017
Accepted date: 17 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Biocompatibility assessment of silk nanoparticles: hemocompatibility and internalization by human blood cells
