Title: Attachment across the Lifespan: Insights from Adoptive Families

Author: K. Lee Raby Mary Dozier

PII: S2352-250X(18)30053-8

DOI: <https://doi.org/doi:10.1016/j.copsyc.2018.03.011>

Reference: COPSYC 639

To appear in:

Received date: 5-3-2018

Accepted date: 19-3-2018

Please cite this article as: K.L. Raby, M. Dozier, Attachment across the Lifespan: Insights from Adoptive Families, *COPSYC* (2018), <https://doi.org/10.1016/j.copsyc.2018.03.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Adoption leads to improvements in attachment security for neglected children
- Early adversity has long-lasting effects on adoptees' attachment representations
- Attachment patterns can be transmitted across generations within adoptive families
