Accepted date: 20-9-2016

Please cite this article as: R.B. Slatcher, Protective Processes Underlying the Links between Marital Quality and Physical Health, *COPSYC* (2016), <http://dx.doi.org/10.1016/j.copsyc.2016.09.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Describes the strength and strain model of marital quality and health
- Partner responsiveness and affective processes are used to illustrate core aspects of the model
- Relationships and health research can profit from a greater integration of relationship science
