Please cite this article as: Jacobsen, C., Piovesan, M., Tax me if you can: An artefactual field experiment on dishonesty, *Journal of Economic Behavior and Organization* (2015), <http://dx.doi.org/10.1016/j.jebo.2015.09.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

- A die-under-cup paradigm tests if the use of a tax frame increases dishonesty
- Participants earn money in proportion to the outcome reported
- We find a significant increase in high outcomes in the presence of a tax frame
- We find “reversed dishonesty” when we add an explanation for the adoption of the tax
