Please cite this article as: Tyrone A. Perreira, Alexandre J.S. Morin, Monique Hebert, Nicolas Gillet, Simon A. Houle, Whitney Berta , The short form of the Workplace Affective Commitment Multidimensional Questionnaire (WACMQ-S): A bifactor-ESEM approach among healthcare professionals. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yjvbe(2017), <https://doi.org/10.1016/j.jvb.2017.12.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running head. WACMQ-S: Bifactor-ESEM

**The Short Form of the Workplace Affective Commitment Multidimensional Questionnaire
(WACMQ-S): A Bifactor-ESEM Approach among Healthcare Professionals**

Tyrone A. Perreira*, Dalla Lana School of Public Health, Institute of Health Policy, Management and Evaluations, University of Toronto, Canada

Alexandre J. S. Morin*, Department of Psychology, Concordia University, Montreal, Canada

Monique Hebert, Faculty of Health, Department of Psychology, York University, Canada

Nicolas Gillet, Université François-Rabelais de Tours, France

Simon A. Houle, Department of Psychology, Concordia University, Montreal, Canada

Whitney Berta, Dalla Lana School of Public Health, Institute of Health Policy, Management and Evaluations, University of Toronto, Canada

*Since the first two authors (T.A.P. & A.J.S.M.) contributed equally to the preparation of this paper, their order of appearance was determined at random: all should be considered first authors.

Acknowledgements

The authors would like to thank the Registered Nurses' Association of Ontario. A special thank you to Dorris Grinspun and Irmajean Bajnok for their approval, support, and in-kind assistance administering the English survey. The French survey was funded by the Fonds Québécois de la Recherche sur la Société et la Culture (FQRSC 2008-NP-119242). Preparation of this article was also supported in part by a grant from the Australian Research Council (LP140100100).
