This study was supported by the U.S. Army Medical Research & Materiel Command-Military Operational Medicine Research Program (USAMRMC-MOMRP; contract W81XWH-11-2-0038) to the third author. The study had both MRCM HRPO and local IRB approval and does not necessarily reflect the policy/position of the government. The funding source had no involvement with the design, collection, analysis or interpretation of the data, or the writing of the report or the decision to submit the article for publication.
