## Accepted Manuscript

A novel Differential Susceptibility framework for the study of nightmares: Evidence for trait sensory processing sensitivity

Michelle Carr, Tore Nielsen

PII:	S0272-7358(17)30106-X
DOI:	doi:10.1016/j.cpr.2017.10.002
Reference:	CPR 1641
To appear in:	Clinical Psychology Review
Received date:	27 March 2017
Revised date:	2 October 2017
Accepted date:	15 October 2017

Please cite this article as: Michelle Carr, Tore Nielsen , A novel Differential Susceptibility framework for the study of nightmares: Evidence for trait sensory processing sensitivity. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Cpr(2017), doi:10.1016/j.cpr.2017.10.002

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
