Adapting Parent–Child Interaction Therapy for Deaf Families That Communicate via American Sign Language: A Formal Adaptation Approach

Lori A. Day, Elizabeth Adams Costa, Danielle Previ, Colleen Caverly

PII: S1077-7229(17)30030-5
DOI: doi:[10.1016/j.cbpra.2017.01.008](https://doi.org/10.1016/j.cbpra.2017.01.008)
Reference: CBPRA 664

To appear in: *Cognitive and Behavioral Practice*

Received date: 23 March 2016
Accepted date: 26 January 2017

Please cite this article as: Day, L.A., Costa, E.A., Previ, D. & Caverly, C., Adapting Parent–Child Interaction Therapy for Deaf Families That Communicate via American Sign Language: A Formal Adaptation Approach, *Cognitive and Behavioral Practice* (2017), doi:[10.1016/j.cbpra.2017.01.008](https://doi.org/10.1016/j.cbpra.2017.01.008)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Adapting Parent–Child Interaction Therapy for Deaf Families That Communicate
via American Sign Language: A Formal Adaptation Approach**

Lori A. Day, *Gallaudet University*

Elizabeth Adams Costa, *River School*

Danielle Previ and Colleen Caverly, *Gallaudet University*

The authors would like to thank Cheryl McNeil for her generous contributions in training and consultation throughout the development of this research.

Address correspondence to Lori A. Day, Ph.D., Gallaudet University, 800 Florida Avenue, NE, Washington, DC 20002; e-mail: Lori.Day@gallaudet.edu.
