

# Accepted Manuscript

Interaction between hypothermia and delayed mesenchymal stem cell therapy in neonatal hypoxic-ischemic brain injury

Josephine Herz, Christian Köster, Barbara S. Reinboth, Mark Dzierko, Wiebke Hansen, Hemmen Sabir, Cindy van Velthoven, Ivo Bendix, Ursula Felderhoff-Müser

PII: S0889-1591(18)30018-7  
DOI: <https://doi.org/10.1016/j.bbi.2018.02.006>  
Reference: YBRBI 3328

To appear in: *Brain, Behavior, and Immunity*

Received Date: 18 September 2017  
Revised Date: 2 February 2018  
Accepted Date: 13 February 2018

Please cite this article as: Herz, J., Köster, C., Reinboth, B.S., Dzierko, M., Hansen, W., Sabir, H., van Velthoven, C., Bendix, I., Felderhoff-Müser, U., Interaction between hypothermia and delayed mesenchymal stem cell therapy in neonatal hypoxic-ischemic brain injury, *Brain, Behavior, and Immunity* (2018), doi: <https://doi.org/10.1016/j.bbi.2018.02.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Interaction between hypothermia and delayed mesenchymal stem cell therapy in neonatal hypoxic-ischemic brain injury**
