Impact of developmental exposure to methylphenidate on rat brain's immune privilege and behavior: control versus ADHD model

Vanessa Coelho-Santos, Filipa L. Cardoso, Ricardo A. Leitão, Carlos A. Fontes-Ribeiro, Ana Paula Silva

PII: S0889-1591(17)30472-5
DOI: <https://doi.org/10.1016/j.bbi.2017.10.016>
Reference: YBRBI 3260

To appear in: *Brain, Behavior, and Immunity*

Received Date: 3 July 2017
Revised Date: 19 October 2017
Accepted Date: 19 October 2017

Please cite this article as: Coelho-Santos, V., Cardoso, F.L., Leitão, R.A., Fontes-Ribeiro, C.A., Silva, A.P., Impact of developmental exposure to methylphenidate on rat brain's immune privilege and behavior: control versus ADHD model, *Brain, Behavior, and Immunity* (2017), doi: <https://doi.org/10.1016/j.bbi.2017.10.016>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of developmental exposure to methylphenidate on rat brain's immune privilege and behavior: control versus ADHD model
