Peripheral Viral Infection Induced Microglial Sensome Genes and Enhanced Microglial Cell Activity in the Hippocampus of Neonatal Piglets

Peng Ji, Kyle M. Schachtschneider, Lawrence B. Schook, Frederick R. Walker, Rodney W. Johnson

PII: S0889-1591(16)30031-9
DOI: <http://dx.doi.org/10.1016/j.bbi.2016.02.010>
Reference: YBRBI 2804

To appear in: *Brain, Behavior, and Immunity*

Received Date: 30 December 2015
Revised Date: 8 February 2016
Accepted Date: 9 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running head: Early-Life Infection Enhanced Microglial Cell Activity

Peripheral Viral Infection Induced Microglial Sensome Genes and Enhanced Microglial Cell Activity in the Hippocampus of Neonatal Piglets
