

## Accepted Manuscript

Individual differences in self-reported reward-approach tendencies relate to resting-state and reward-task-based fMRI measures

Guangheng Dong, Hui Li, Yifan Wang, Marc N. Potenza

PII: S0167-8760(17)30464-6  
DOI: doi:[10.1016/j.ijpsycho.2018.03.014](https://doi.org/10.1016/j.ijpsycho.2018.03.014)  
Reference: INTPSY 11420

To appear in: *International Journal of Psychophysiology*

Received date: 10 August 2017  
Revised date: 27 January 2018  
Accepted date: 20 March 2018

Please cite this article as: Guangheng Dong, Hui Li, Yifan Wang, Marc N. Potenza , Individual differences in self-reported reward-approach tendencies relate to resting-state and reward-task-based fMRI measures. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Intpsy(2017), doi:[10.1016/j.ijpsycho.2018.03.014](https://doi.org/10.1016/j.ijpsycho.2018.03.014)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
