

Accepted Manuscript

Higher-order conditioning and the retrosplenial cortex

Travis P. Todd, Roman Huszár, Nicole E. DeAngeli, David J. Bucci

PII: S1074-7427(16)30060-0
DOI: <http://dx.doi.org/10.1016/j.nlm.2016.05.006>
Reference: YNLME 6443

To appear in: *Neurobiology of Learning and Memory*

Received Date: 11 February 2016
Revised Date: 16 May 2016
Accepted Date: 17 May 2016

Please cite this article as: Todd, T.P., Huszár, R., DeAngeli, N.E., Bucci, D.J., Higher-order conditioning and the retrosplenial cortex, *Neurobiology of Learning and Memory* (2016), doi: <http://dx.doi.org/10.1016/j.nlm.2016.05.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Invited Manuscript, 2014 Pavlovian Research Award

Re-revised and resubmitted May 16, 2016

Higher-order conditioning and the retrosplenial cortex

Travis P. Todd, Roman Huszár, Nicole E. DeAngeli, and David J. Bucci
