Acute exercise improves motor memory: Exploring potential biomarkers

Kasper Skriver, Marc Roig, Jesper Lundbye-Jensen, Jessica Pingel, Jørn Wulff Helge, Bente Kiens, Jens Bo Nielsen

PII:	S1074-7427(14)00143-9
DOI:	http://dx.doi.org/10.1016/j.nlm.2014.08.004
Reference:	YNLME 6149
To appear in:	Neurobiology of Learning and Memory
Received Date:	24 November 2013
Revised Date:	24 July 2014
Accepted Date:	6 August 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
