This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cognitive effects of transcranial direct current stimulation treatment in patients with major depressive disorder: an individual patient data meta-analysis of randomised, sham-controlled trials

Authors:

***Donel M. Martin**

School of Psychiatry, Black Dog Institute, University of New South Wales, Sydney, Australia. Hospital Rd, Randwick, Sydney NSW 2031. Australia.

Declarations of interest: none.

Adriano Moffa

School of Psychiatry, Black Dog Institute, University of New South Wales, Sydney, Australia. Hospital Rd, Randwick, Sydney NSW 2031. Australia.

Declarations of interest: none.

AHM is the recipient of a Scientia PhD Scholarship from the University of New South Wales, Sydney, Australia.

Stevan Nikolin

School of Psychiatry, Black Dog Institute, University of New South Wales, Sydney, Australia. Hospital Rd, Randwick, Sydney NSW 2031. Australia.

Declarations of interest: none.

Djamila Bennabi

Department of Clinical Psychiatry, Clinical Investigation Center 1431 Inserm, EA 481 Neurosciences, University Hospital of Besancon and FondaMental Foundation, Créteil, France

Declarations of interest: none.

André R. Brunoni

Service of Interdisciplinary Neuromodulation (SIN), Department and Institute of Psychiatry, University of São Paulo Medical School, São Paulo, Brazil; Laboratory of Neuroscience (LIM27) and National Institute of Biomarkers in Psychiatry (INBioN), Department and Institute of Psychiatry, University of São Paulo Medical School, São Paulo, Brazil; Department of Psychiatry and Psychotherapy, Ludwig-Maximilians-University, Munich, Germany.

ARB receives a CAPES-Humboldt fellowship award for experienced researchers. The Laboratory of Neuroscience receives financial support from the Beneficent Association Alzira Denise Hertzog da Silva and the CAPES / INCT program “National Institute of Biomarkers in Psychiatry” (INBioN). ARB received honoraria from DeltaMedical (distributor of Magventure in Brazil) and Neurocare group.
