Title: The contralateral delay activity as a neural measure of visual working memory

Author: Roy Luria Halely Balaban Edward Awh Edward K. Vogel

PII: S0149-7634(15)30089-0
DOI: <http://dx.doi.org/doi:10.1016/j.neubiorev.2016.01.003>
Reference: NBR 2335

To appear in:

Received date: 17-7-2015
Revised date: 10-9-2015
Accepted date: 11-1-2016

Please cite this article as: Luria, Roy, Balaban, Halely, Awh, Edward, Vogel, Edward K., The contralateral delay activity as a neural measure of visual working memory. *Neuroscience and Biobehavioral Reviews* <http://dx.doi.org/10.1016/j.neubiorev.2016.01.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Contralateral Delay Activity as a Neural Measure of Visual Working Memory

Running title: the CDA as a measure of VWM
