Received date: 1-2-2014  
Revised date: 26-6-2014  
Accepted date: 1-8-2014

Please cite this article as: Brühl, A.B., Delsignore, A., Komossa, K., Weidt, S., Neuroimaging in Social Anxiety Disorder—a meta-analytic review resulting in a new neurofunctional model, *Neuroscience and Biobehavioral Reviews* (2014), <http://dx.doi.org/10.1016/j.neubiorev.2014.08.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Meta-analytic review of neuroimaging studies in Social Anxiety Disorder since 2007
- Functional studies add hyperactive parietal and occipital regions to model
- Connectivity and network-based approaches are included
- New model shows disconnection of medial parietal regions in SAD
