Conditioned flavor preferences in animals: Merging pharmacology, brain sites and genetic variance

Richard J. Bodnar

PII: S0195-6663(16)30930-8

DOI: [10.1016/j.appet.2016.12.015](https://doi.org/10.1016/j.appet.2016.12.015)

Reference: APPET 3260

To appear in: *Appetite*

Received Date: 28 June 2016

Revised Date: 7 December 2016

Accepted Date: 13 December 2016

Please cite this article as: Bodnar R.J., Conditioned flavor preferences in animals: Merging pharmacology, brain sites and genetic variance, *Appetite* (2017), doi: 10.1016/j.appet.2016.12.015.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
