

Accepted Manuscript

A sad mood increases attention to unhealthy food images in women with food addiction

Mallory Frayn, Christopher R. Sears, Kristin M. von Ranson

PII: S0195-6663(16)30043-5

DOI: [10.1016/j.appet.2016.02.008](https://doi.org/10.1016/j.appet.2016.02.008)

Reference: APPET 2860

To appear in: *Appetite*

Received Date: 15 August 2015

Revised Date: 26 January 2016

Accepted Date: 4 February 2016

Please cite this article as: Frayn M., Sears C.R. & von Ranson K.M., A sad mood increases attention to unhealthy food images in women with food addiction, *Appetite* (2016), doi: 10.1016/j.appet.2016.02.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
