Beta oscillatory power modulation reflects the predictability of pitch change

Andrew Chang, Dan J. Bosnyak, Laurel J. Trainor

PII: S0010-9452(18)30194-1

DOI: [10.1016/j.cortex.2018.06.008](https://doi.org/10.1016/j.cortex.2018.06.008)

Reference: CORTEX 2341

To appear in: *Cortex*

Received Date: 23 January 2018

Revised Date: 16 June 2018

Accepted Date: 19 June 2018

Please cite this article as: Chang A, Bosnyak DJ, Trainor LJ, Beta oscillatory power modulation reflects the predictability of pitch change, *CORTEX* (2018), doi: 10.1016/j.cortex.2018.06.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Beta oscillatory power modulation reflects the predictability of pitch change**
