

# Accepted Manuscript

ERP evidence of distinct processes underlying semantic facilitation and interference in word production

Python Grégoire, Fargier Raphaël, Laganaro Marina

PII: S0010-9452(17)30314-3

DOI: [10.1016/j.cortex.2017.09.008](https://doi.org/10.1016/j.cortex.2017.09.008)

Reference: CORTEX 2129

To appear in: *Cortex*

Received Date: 13 December 2016

Revised Date: 29 August 2017

Accepted Date: 11 September 2017

Please cite this article as: Grégoire P, Raphaël F, Marina L, ERP evidence of distinct processes underlying semantic facilitation and interference in word production, *CORTEX* (2017), doi: 10.1016/j.cortex.2017.09.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**ERP evidence of distinct processes underlying semantic facilitation and interference in word production**
