This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Two Experience Sampling Studies Examining the Variation of Self-Control Capacity and Its Relationship with Core Affect in Daily Life¹

Chao Zhang, Karin C. H. J. Smolders, Daniël Lakens, Wijnand A. IJsselstein

Eindhoven University of Technology

Author note:

Corresponding author is Chao Zhang, Technische Universiteit Eindhoven, Postbus 513, 5600 MB EINDHOVEN, Email: c.zhang.5@tue.nl. All data, materials, and analyses scripts for the current paper are available at Open Science Framework: <https://osf.io/hguz4/>. This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Acknowledgments

The authors want to thank Sabrina Thai and Dr. Elizabeth Page-Gould for their generous help during the development and production of our experience sampling apps.

¹ All authors contributed to the study conceptualization, data collection, and report writing. Data analyses were mainly done by Chao Zhang and Karin Smolders. The experience sampling app used was developed mainly by Chao Zhang.
