This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Social Science & Medicine manuscript number:

SSM-D-18-00019R1

Title:

How does Performance-based Financing affect health workers' intrinsic motivation? A Self-Determination Theory-based mixed-methods study in Malawi.

Author names and institutional affiliations:

Julia Lohmann, Institute of Public Health, Medical Faculty, Heidelberg University, Germany
(corresponding author)

Adamson S. Muula, Department of Public Health, College of Medicine, University of Malawi

Nathalie Houlfort, Département de Psychologie, Université du Québec à Montréal, Canada

Manuela De Allegri, Institute of Public Health, Medical Faculty, Heidelberg University, Germany

Corresponding author's name and email address:

Julia Lohmann, julia.lohmann@uni-heidelberg.de

Acknowledgements:

The authors would like to thank Stephan Brenner, Christabel Kambala, Jacob Mazalale, Jobiba Chinkhumba, and Alinafe Mwanza for their support with data collection, and Danielle Wilhelm for her support with data analysis.

This work was funded by the United States Agency for International Development under Translating Research into Action [Cooperative Agreement No. GHS-A-00-09-00015-00]. This study is made possible by the support of the American People through the United States Agency for International Development (USAID). The study was further supported by the Norwegian Agency for Development Cooperation (NORAD) and by the Royal Norwegian Embassy in Lilongwe. JL received funding for her doctoral work from the Konrad-Adenauer-Stiftung.

The findings of this study are the sole responsibility of research teams at the University of Heidelberg and the College of Medicine of the University of Malawi and do not necessarily reflect the views of USAID, the United States Government, NORAD or the Royal Norwegian Embassy in Lilongwe.
