Germany

³ Department of Epidemiology and Health Monitoring, Robert Koch Institute, Berlin, Germany

Acknowledgements: The authors thank all children, adolescents, their parents and young adults who participated in the BELLA study. We are very grateful to all experts who supported our project, especially to Prof. Dr. Walper and Prof. Dr. Brüderl as well as the advisory board of the EBWo project and the BELLA study group. Further, we would like to thank the Robert Koch Institute for their ongoing support and cooperation.
