

Accepted Manuscript

Does retirement (really) lead to worse health among European men and women across all educational levels?

Philipp Hessel, PhD, David E. Bell Fellow

PII: S0277-9536(15)30278-1

DOI: [10.1016/j.socscimed.2015.12.018](https://doi.org/10.1016/j.socscimed.2015.12.018)

Reference: SSM 10419

To appear in: *Social Science & Medicine*

Received Date: 5 August 2015

Revised Date: 10 December 2015

Accepted Date: 13 December 2015

Please cite this article as: Hessel, P., Bell Fellow, D.E., Does retirement (really) lead to worse health among European men and women across all educational levels?, *Social Science & Medicine* (2016), doi: 10.1016/j.socscimed.2015.12.018.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Does retirement (really) lead to worse health among European men and women across all educational levels?
