This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Does rising crime lead to increasing distress? Longitudinal analysis of a natural experiment
with dynamic objective neighbourhood measures

Social Science and Medicine

Short Report (2000 to 4000 words)

Authorship:

Thomas Astell-Burt^{1,2}
Xiaoqi Feng^{3,4,5}
Gregory S Kolt¹
Bin Jalaludin⁶

Affiliations:
