This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# **Does Community Social Embeddedness Promote Generalized Trust? An Experimental Test of the Spillover Effect**

I would like to thank Neli Demireva, Nick Allum, Renee Luthra, Dietlind Stolle, and Martina Testori for comments on earlier versions of this article. Also, I gratefully acknowledge the support of the Department of Sociology at the University of Essex, the ESSEXlab Seedcorn funding (FY00355), and the Economic and Social Research Council for financially supporting my work.
