To appear in: *Economics Letters*

Received date: 13 December 2017

Revised date: 6 March 2018

Accepted date: 16 March 2018

Please cite this article as: Mehrotra A., Yetman J., Are inflation targets credible? A novel test. *Economics Letters* (2018), <https://doi.org/10.1016/j.econlet.2018.03.015>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- The paper proposes a novel test of the credibility of inflation targets
- We compare estimated long-run anchors of inflation forecasts with announced targets
- We find that professional forecasters mostly consider inflation targets credible
