This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Female Directors and CEO Power

Highlights

- We investigate the effect of boardroom gender diversity on CEO power.
- We find that CEO is more powerful when the board is gender diverse.
- Our findings suggest that women directors are weak monitors.
- Our findings do not support the ‘business case’ for boardroom gender diversity.
