This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- Prebisch and Singer hypothesis: commodity prices decline vs manufactured goods prices
- We examine the post-colonial era 1950-2011 using panel cointegration techniques
- Hypothesis confirmed for Agricultural products, but not for Metal goods, for 1950-2011
- Hypothesis never confirmed for 1950-1980
