

## Accepted Manuscript

A distribution-free stochastic frontier model with endogenous regressors

Levent Kutlu

PII: S0165-1765(17)30521-9

DOI: <https://doi.org/10.1016/j.econlet.2017.12.026>

Reference: ECOLET 7887

To appear in: *Economics Letters*

Received date: 17 August 2017

Revised date: 15 December 2017

Accepted date: 18 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**\*Highlights (for review)**

- We propose distribution-free stochastic frontier instrumental variable methods
- We generalize within estimator of Cornwell, Schmidt, and Sickles (1990)
- Simulations show that our estimators perform well
