This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Our results indicate that spot gold can be an effective hedge against stocks.
- Gold acted as a safe haven asset during the Global Financial Crisis period.
- In India, the optimal weightage for gold in a gold/stock portfolio is 30 per cent.
