This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Institutional investors improve corporate information transparency in China. •
- Institutional ownership enhances accounting and corporate governance transparency.
- Mutual fund and qualified foreign investors play a significant role in increasing transparency.
- Institutional shareholders monitor and protect the interests of minority shareholders. •
