This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- We study the impact of IPO lockup removal on IPO pricing.
- The unique dataset in China makes the analysis possible.
- IPO lockup removal leads to a higher institutional investor bid price.
- It also leads to a higher IPO offer price and a lower first-day return.
