Endowments-swapping-proof house allocation

Yuji Fujinaka, Takuma Wakayama

PII: S0899-8256(18)30072-1
DOI: <https://doi.org/10.1016/j.geb.2018.05.004>
Reference: YGAME 2865

To appear in: *Games and Economic Behavior*

Received date: 1 July 2017

Please cite this article in press as: Fujinaka, Y., Wakayama, T. Endowments-swapping-proof house allocation. *Games Econ. Behav.* (2018), <https://doi.org/10.1016/j.geb.2018.05.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- We consider object reallocation problems with strict preferences.
- We study manipulation via endowments.
- We propose the notion of endowments-swapping-proofness.
- We characterize TTC in terms of endowments-swapping-proofness.
