Blackwell's informativeness theorem using diagrams

Henrique de Oliveira

PII: S0899-8256(17)30227-0
DOI: https://doi.org/10.1016/j.geb.2017.12.008
Reference: YGAME 2798

To appear in: *Games and Economic Behavior*

Received date: 31 December 2016

Please cite this article in press as: de Oliveira, H. Blackwell's informativeness theorem using diagrams. *Games Econ. Behav.* (2017), https://doi.org/10.1016/j.geb.2017.12.008

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Blackwell's theorem is proved using the category of stochastic maps
- An analogous theorem for information that arrives over time is proved
- Independent garblings result from an analogous theorem with two players
