This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

- Two firms supplying experience goods compete to attract loss averse consumers.
- Consumers are uncertain about product quality
- We investigate firms' dynamic incentives to allow experimentation
- Analyze the effects on the profitability and the stability of tacit collusion.
