

Accepted Manuscript

Design and development of a simulation-based decision support tool to improve the production process at an engineered wood products mill

Luke Opacic, Taraneh Sowlati, Mahdi Mobini

PII: S0925-5273(18)30127-0

DOI: [10.1016/j.ijpe.2018.03.010](https://doi.org/10.1016/j.ijpe.2018.03.010)

Reference: PROECO 6980

To appear in: *International Journal of Production Economics*

Received Date: 30 March 2017

Revised Date: 6 March 2018

Accepted Date: 9 March 2018

Please cite this article as: Opacic, L., Sowlati, T., Mobini, M., Design and development of a simulation-based decision support tool to improve the production process at an engineered wood products mill, *International Journal of Production Economics* (2018), doi: 10.1016/j.ijpe.2018.03.010.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Design and development of a simulation-based decision support tool to
improve the production process at an engineered wood products mill**
