Rotating the medical supplies for emergency response: A simulation based approach

Quan Spring Zhou, Tava Lennon Olsen

PII: S0925-5273(17)30357-2

DOI: [10.1016/j.ijpe.2017.11.010](https://doi.org/10.1016/j.ijpe.2017.11.010)

Reference: PROECO 6873

To appear in: *International Journal of Production Economics*

Received Date: 6 December 2016

Revised Date: 5 July 2017

Accepted Date: 6 November 2017

Please cite this article as: Zhou, Q.S., Olsen, T.L., Rotating the medical supplies for emergency response: A simulation based approach, *International Journal of Production Economics* (2017), doi: 10.1016/j.ijpe.2017.11.010.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Rotating the medical supplies for emergency response: A simulation based approach
