This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- GCBs increased lending to SMEs with a weaker main-bank relationship in the financial crisis.
- This is consistent with the welfare maximization by GCBs rather than the profit maximization.
