

## Accepted Manuscript

Empty homes, longer commutes: The unintended consequences of more restrictive local planning

Paul Cheshire, Christian A.L. Hilber, Hans R.A. Koster

PII: S0047-2727(17)30208-6  
DOI: <https://doi.org/10.1016/j.jpubeco.2017.12.006>  
Reference: PUBEC 3840  
To appear in: *Journal of Public Economics*  
Received date: 23 May 2016  
Revised date: 1 September 2017  
Accepted date: 19 December 2017

Please cite this article as: Paul Cheshire, Christian A.L. Hilber, Hans R.A. Koster , Empty homes, longer commutes: The unintended consequences of more restrictive local planning. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Pubec(2017), <https://doi.org/10.1016/j.jpubeco.2017.12.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
