

## Accepted Manuscript

Anomalous and non-Gaussian diffusion in Hertzian spheres

Wenze Ouyang, Bin Sun, Zhiwei Sun, Shenghua Xu

PII: S0378-4371(18)30354-6  
DOI: <https://doi.org/10.1016/j.physa.2018.03.034>  
Reference: PHYSA 19368

To appear in: *Physica A*

Received date: 1 December 2017

Revised date: 16 March 2018

Please cite this article as: W. Ouyang, B. Sun, Z. Sun, S. Xu, Anomalous and non-Gaussian diffusion in Hertzian spheres, *Physica A* (2018), <https://doi.org/10.1016/j.physa.2018.03.034>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- (1) Dynamic heterogeneity is increased with temperature
- (2) Decoupling between  $\tau_\alpha$  and  $\tau_{\max}$
- (3) Anomalous and non-Gaussian diffusion is associated with weakly correlated mean-field behavior
- (4) At extremely high temperatures,  $\tau_{\max} \sim 1 / \rho$
