Construction of Road Network Vulnerability Evaluation Index Based on General Travel Cost

Leng Jun-qiang, Zhai Jing, Li Qian-wen, Zhao Lin

PII: S0378-4371(17)31090-7

DOI: <https://doi.org/10.1016/j.physa.2017.11.018>

Reference: PHYSA 18786

To appear in: *Physica A*

Received date: 4 August 2017

Revised date: 17 October 2017

Please cite this article as: J.-q. Leng, J. Zhai, Q. Li, L. Zhao, Construction of Road Network Vulnerability Evaluation Index Based on General Travel Cost, *Physica A* (2017), <https://doi.org/10.1016/j.physa.2017.11.018>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

1. Travel cost and vulnerability of road network are defined.
2. The influence of some factors on vulnerability are studied.
3. The vulnerability index is used to analyze a real network and verify its applicability.
