This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1. We solved the collective chemo sensing by the cells with different radii.
2. We mapped the cell chemo sensing to human collective decision making.
3. We introduced the concept of metacognition of the cell.
4. We try to understand the cancer as an impaired cell metacognition.
