

Accepted Manuscript

Application of artificial neural network with extreme learning machine
for economic growth estimation

Ljubiša Milačić, Srđan Jović, Tanja Vujović, Jovica Miljković

PII: S0378-4371(16)30557-X

DOI: <http://dx.doi.org/10.1016/j.physa.2016.08.040>

Reference: PHYSA 17457

To appear in: *Physica A*

Received date: 20 July 2016

Revised date: 8 August 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The estimation of the gross domestic product (GDP) growth rate.
- Economic growth basis on combination of different factors.
- The accuracy of the extreme learning machine (ELM).
