This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

- The market environment is an important explanatory determinant of investors' behavior
- Investors show the highest propensity for the disposition effect during bear markets
- However, investors achieve also the greatest learning achievements during bear markets
- "Learning by doing" is more important than "learning about ability"
